

# PortServer® TS 8/16 Family :: Terminal Servers

**Overview** :: The PortServer TS 8/16 family delivers simple, reliable and cost effective RS-232/422/485 serial-to-Ethernet connectivity with a robust feature set for efficient device management. It is ideal for a wide range of applications including property management, retail/POS, travel reservations, industrial automation and data acquisition. The PortServer TS 8/16 family also offers additional value for console management applications that do not require the high-end features of the Digi CM (page 54).

+

## + Features ::

- Cost-effective serial-to-network connectivity
- SSH v2 ensures encrypted connections
- Patented RealPort® with Encryption redirector provides local serial port functionality
- NIST FIPS-certified (secure AES)
- Ports may be shared between multiple hosts running different operating systems
- Supports SNMP for easy network management
- Supports RADIUS authentication and accounting
- NEBS Level III certified in a system
- 5-year warranty

## + Specifications ::

- 10/100Base-T Ethernet support
- 8/16 ports
- RS-232 and switch selectable RS-232/422/485 models
- 19" rack kit model
- Baud rates up to 230 Kbps
- TCP/UDP/Telnet Socket Services
- Patented RealPort with Encryption
- RFC 2217 support
- 9-30VDC input
- 48VDC power option (RS-232 models only)
- Modem emulation
- SNMP (read/write)
- PPP
- SSH v2, SSL/TLS
- Port buffering
- Modbus to Modbus/TCP conversion
- HTTP
- Digi Port Authority – Remote management diagnostics and auto-discovery tool
- DHCP/RARP/ARP-Ping for IP address assignment

\* For a more robust solution to manage server room devices, see Digi CM on page 54.
